

# INSTRUCTIONS TO RUN THE PROJECT

## Run Locally :

- Install Nodejs and npm as per your OS
- Get inside the Project directory
- Run *npm install*
- Run *npm start* or *node app.js*
- Access it in your Browser by going to <http://localhost:8000> .

## Run Globally {Heroku}:

You can use any cloud platform to deploy this project. I have used Heroku for deploying it.

You can access it here : <https://mean-demo12.herokuapp.com/> .
